SUMMARY

Product leader who lives in the AI tooling landscape daily: hands-on with agent frameworks, model providers and eval tooling, and an advanced Claude Code user with an executable skill library and dedicated subagents. Built a production AI platform integrating seven model-provider gateways behind a unified model catalog that binds capabilities, parameters, routing and per-model COGS, and made agent quality measurable with judge agents, golden sets and autotests. Turns ambiguous strategic questions into roadmaps and shipped outcomes: a 15-initiative fintech strategy and a board-level build-vs-buy case defended to the shareholder bank's board. Writes narrative-grade strategy documents for C-level and board audiences.

PROFESSIONAL EXPERIENCE

Product Lead

Jul 2025 - Present

Independent AI Product Development

- Own the integration portfolio of Vertov, an AI video platform in production: seven model-provider gateways unified behind one model catalog binding capabilities, parameters, routing and per-model COGS; the pricing engine selects the best-priced provider per generation and a margin guardrail refuses to sell below cost.
- Made AI agent quality measurable rather than assumed: scenario test cases, autotests, judge agents and a golden set wired into the delivery workflow.
- Run a multi-agent operating environment that automates research, analysis, reporting and documentation for product and finance work; adversarial review of every brief and diff is mandatory.
- Work as an advanced Claude user: executable skill library, a dedicated subagent per hard skill, model-tiered delegation across Claude Code, Codex CLI, Cursor and OpenCode.

Head of Finance & Strategy

Jun 2025 - Jun 2026

Kompas Group JSC (shareholder: VTB Bank), Russia

Regulated digital-currency platform for cross-border settlement of foreign-trade contracts.

- Built a 10-year multi-scenario financial model and the build-vs-buy case with six implementation options, and defended it before the VTB Bank board, where the model became the basis of the investment decision.
- Structured the technology and AML vendor perimeter across build, buy and partner routes, renegotiating scope and adding 10-15 p.p. of margin in the project's financial model.
- Hand-built the platform prototype on AI tools and took it to its first successful test transactions.

Fintech Strategy & Products Lead

Dec 2023 - Jun 2025

Wildberries, Russia

Russia's largest online marketplace, serving 60M+ active users across e-commerce, fintech and logistics.

- Built and defended the WB Fintech strategy across 15 initiatives with approximately USD 458.3M in modelled annual profit potential; led five of 15 through product committee approval.
- Ran deep dives into payments and operations across seven fintech products, tracing payment-gateway and microservice data through Kafka, Airflow, DWH and OLAP cubes to root causes, not symptoms.
- Led six direct reports and coordinated 10+ cross-functional partners across product, IT, data, finance, legal and risk.

M&A Analyst | Portfolio Company Audit

Sep 2022 - Dec 2023

Tinkoff Bank, Russia

Russia's second-largest bank by active customers, with 55M+ customers and a digital fintech ecosystem.

- Led audit and advisory projects across 10+ fintech companies (combined turnover above USD 381.9M): scoped engagements, assessed monetisation and business models, and presented Go/No-Go recommendations directly to subsidiary CEOs and bank vice presidents; led a 4+ person team.
- Ran an end-to-end audit of CloudPayments online acquiring across merchant onboarding, transaction processing, internal controls and commission billing; quantified potential missed commission worth about 20% of product revenue.

Auditor

Apr 2021 - Sep 2022

PricewaterhouseCoopers (PwC Russia), Russia

- Audited international companies including Nike, Coca-Cola and L'Occitane under IFRS, US GAAP and Russian GAAP, including revenue testing, analysis of financial-performance drivers and client-facing findings.

Investment Analyst | Internship & Independent Client Projects

Jun 2019 - Sep 2022

Interactive Brokers

- Built DCF models and calculated WACC, performed fundamental analysis; provided investment analysis services and managed a portfolio, doubling it over the period.

INDEPENDENT PROJECTS

Independent Fintech Strategy Adviser

2024 - Present

- Advised Magnit, Russia's largest retailer by store count (33,000+ stores), on an eight-product B2C/B2B fintech strategy with unit economics and a five-year P&L; advised VseInstrumenty.ru, Russia's number-one online DIY retailer, on acquiring optimisation and payments monetisation.

EDUCATION

- HSE University, Master of International Business (MIB), English-taught programme · Moscow, 2023
- Peter the Great St. Petersburg Polytechnic University, BSc in Management, International Business · St. Petersburg, 2021, with honours
