

Diyor Nurutdinov

AI Adoption Lead | Programme Structure · Enablement Playbooks · Adoption Metrics · Agentic Workflows

Tashkent, Uzbekistan • +998 95 642 38 42 • n.royid98@gmail.com • tg @nroyid • <https://linkedin.com/in/diynor>

SUMMARY

Programme-minded operator with 6+ years across fintech, a high-growth marketplace and Big 4 audit, building the structure that makes programmes measurable. Ran a portfolio of 15 initiatives through product committee approval, advised 10+ internal teams on economics and business cases, and coordinated 10+ cross-functional partners across product, IT, data, finance, legal and risk without line authority. Built an executable AI operating system for own work - specialised agents with guardrails, briefs with verify commands, judge agents, golden sets and a mandatory adversarial review - and use it daily to automate research, reporting and monitoring. Standardised metric definitions and data SLAs across seven products covering 30M+ active users and built dashboards and reporting packs for senior leadership up to a bank board. PwC-trained auditor; SQL, Python, Excel and BI dashboards.

PROFESSIONAL EXPERIENCE

Head of Analytics | Fintech Strategy & Product Lead

Dec 2023 - Jun 2025

Wildberries, Russia

Russia's largest online marketplace, serving 60M+ active users across e-commerce, fintech and logistics.

- Built and defended the five-year strategy for the entire WB Fintech business across 15 initiatives, translating the portfolio into product economics, funding requirements and a sequenced launch roadmap; five initiatives passed product committee approval, with financial model, unit economics and scenarios built for each defence.
- Provided expert support to 10+ internal fintech ventures: built unit economics, financial models and business cases for committee decisions, maintaining visibility of each initiative's status and economics across the portfolio.
- Built the operating analytics and scorecard system across seven products covering 30M+ active users: unified metric definitions, data SLAs and a daily-to-annual plan-fact cadence so product, engineering and finance worked from one checkable number.
- Led six direct reports and coordinated 10+ cross-functional partners across product, IT, data, finance, legal and risk without line authority over them.
- Put adoption and value metrics on dashboards: amount at risk and per-bucket, per-cohort default rates for the risk team; acquisition and adoption metrics for wallet and card products feeding acquisition-budget and pricing decisions.

Head of Finance & Strategy

Jun 2025 - Jun 2026

Kompas Group JSC (shareholder: VTB Bank), Russia

Regulated digital-currency platform for cross-border settlement of foreign-trade contracts within the Bank of Russia's experimental legal regime.

- Built the finance function from scratch: a five-person team, the management reporting cycle and the project's financial-model contour.
- Built a 10-year multi-scenario model covering market, turnover, tariffs, P&L, capital and liquidity; compared six build-vs-buy options and defended the investment case before the VTB Bank board, where it became the basis of the investment decision.
- Hand-built the platform prototype on AI tools and took it to its first successful test transactions; ran the regulatory track into the Bank of Russia experimental regime alongside technology, legal and business teams.

M&A Analyst | Portfolio Company Audit

Sep 2022 - Dec 2023

Tinkoff Bank, Russia

Russia's second-largest bank by active customers, with 55M+ customers and a digital fintech ecosystem.

- Led audit and advisory across 10+ fintech ecosystem companies with combined annual turnover above RUB 30B, working directly with subsidiary CEOs and bank vice presidents with a 4+ person team.
- Kept continuous control between formal audits: mapped the ecosystem's businesses, set guardrail metrics, tracked anomalies and escalated them to process owners until closed.
- Applied BPMN process mapping and COSO, ISO 31000, COBIT, ITIL and PRINCE2 frameworks to assess processes, operational and regulatory risk and organisational maturity.

Auditor

Apr 2021 - Sep 2022

PricewaterhouseCoopers (PwC Russia), Russia

- Audited international companies including Nike, Coca-Cola and L'Occitane under IFRS, US GAAP and Russian GAAP, including revenue testing and client-facing findings.

INDEPENDENT PROJECTS

Independent AI Product Development | Automation

2025 - Present

- Run a portfolio of five AI products, including a generative-video platform live in production with usage-based billing across seven model-provider gateways and per-model margin guardrails.
- Built an executable AI operating system kept in the repository: a dedicated agent per hard skill with its own system prompt and guardrails, briefs carrying the goal, exact files and a verify command, a mandatory adversarial pass on every brief and every diff, judge agents and a golden set for auto-evaluation, git-worktree isolation.
- Use the same system to automate research, market monitoring, reporting, product development and QA, tracking output quality with measurable evaluation rather than judgement alone.

EDUCATION

- HSE University, Master of International Business (MIB), English-taught programme · Moscow, 2023
- Peter the Great St. Petersburg Polytechnic University, BSc in Management · St. Petersburg, 2021, with honours
- ACCA F1-F3 completed · Yale, Financial Markets (Coursera), with honours, 2021 · Karpov.Courses analytics intensive: SQL, Python, financial modelling

LANGUAGES

Russian: native · English: C1 · Uzbek: native
