Combines product discovery, unit economics and hands-on delivery.

PROFESSIONAL EXPERIENCE

Product Lead

Jul 2025 - Present

Independent AI Product Development

- Took Vertov, an AI video studio, to production: the full cycle from screenplay and storyboard through generation, editing and publishing.
- Made the product's economics governable: billing selects the best-priced provider for every generation, accounts for FX rates and currency risk, and unit economics close on every billed generation; a structural guardrail refuses to sell below cost.
- Built a portfolio of five AI products spanning generative video, conversational and voice AI, AI app generation and semantic search across web, mobile, desktop and Telegram.
- Built a personal AI environment as an executable skill library: a dedicated subagent with its own system prompt and guardrails for each hard skill, with adversarial review of every brief and every diff before commit.
- Work daily in Claude Code, Cursor, Codex CLI, Kimi CLI and OpenCode, with part of the pipeline built on own harnesses; built auto-evaluation of agent quality: scenario test cases, autotests, judge agents and a golden set.

KinoCoin | Founding-team Member, Product & Engineering

2025 - Present

- Owned the complete web product surface across VOD, film projects and investment, creator marketplace, profiles, donations and payment flows; worked across React/TypeScript, Go and Flutter.
- Built authentication and access control across phone login and Russian-market OAuth (Yandex ID, Sber ID, MTS ID), sessions, JWT/JWKS and RBAC; fixed a critical privilege self-assignment vulnerability and implemented consent, 2FA and secure auth flows.
- Built the content-publication lifecycle from web and Flutter upload through Go APIs, Kinescope TUS upload, status webhooks, moderation and playback; implemented creator attribution, complaints and takedown, and cleared Apple review and compliance.

Product & Strategy Lead

Jun 2025 - Jun 2026

Kompas Group JSC (shareholder: VTB Bank), Russia

Regulated digital-currency platform for cross-border settlement of foreign-trade contracts.

- Took the regulated platform from concept to its first successful test transactions; defined product strategy, roadmap, pricing, unit economics and customer journey, and built an AI-assisted prototype.
- Presented the investment case to the VTB Bank board, supported by a 10-year financial model and six build-vs-buy options.

Fintech Products & Strategy Lead

Dec 2023 - Jun 2025

Wildberries, Russia

Russia's largest online marketplace, serving 60M+ active users across e-commerce, fintech and logistics.

- Launched seller lending in 3.5 months and reached profitability within six months; co-launched B2C instalments with the CPO. The two products reached approximately USD 763.8M in first-year originations.
- Owned product design, P&L, pricing and risk; cut the credit decision cycle from three days to 30 minutes and initiated a BNPL economics change worth approximately one percentage point of margin.
- Built and defended the WB Fintech strategy across 15 initiatives; five passed product committee approval and the portfolio had approximately USD 458.3M in modelled annual profit potential.
- Built management and product analytics across seven products, including lending, insurance, acquiring and e-wallets; led six direct reports and coordinated 10+ cross-functional partners.

M&A Analyst | Portfolio Company Audit

Sep 2022 - Dec 2023

Tinkoff Bank, Russia

Russia's second-largest bank by active customers, with 55M+ customers and a digital fintech ecosystem.

- M&A: assessed customer journeys, monetisation and operating models across 10+ fintech companies with combined turnover above USD 381.9M, including Koshelek.app, CloudPayments, Jump.Finance, Jump.Taxi, Dolyami and T-Kapital; worked with subsidiary CEOs and Tinkoff vice presidents, leading a 4+ person team.
- Mapped the CloudPayments merchant journey from onboarding to commission billing and identified potential missed commission equivalent to approximately 20% of current product revenue; connected Wallet acquisition, behaviour and revenue, after which ROMI increased by 40%, average transaction value by 30% and spend nearly halved.

Auditor

Apr 2021 - Sep 2022

PricewaterhouseCoopers (PwC Russia), Russia

- Performed audits and financial analysis of international companies including Nike, Coca-Cola and L'Occitane under IFRS, US GAAP and Russian GAAP; analysed financial performance and prepared findings for clients.

Investment Analyst | Internship & Independent Client Projects

Jun 2019 - Sep 2022

Interactive Brokers

- Performed fundamental analysis of public companies and built DCF and WACC models; provided investment analysis services and managed an investment portfolio.

Independent Fintech Strategy Adviser

2024 - Present

Magnit · VseInstrumenty.ru

- Developed Magnit's eight-product B2C/B2B fintech strategy; developed an acquiring optimisation and payments monetisation strategy for VseInstrumenty.ru.
